Important Notice.

Having severed my connection with the Roy Watch Case Co., my former agents, I am now enabled to reduce the price for Miniatures from \$6.00 to \$3.00, thus giving the trade an opportunity of offering my genuine and durable process at the price of cheap and counterfeit work. I have received information from directors of the World's Fair, Chicago, that I have been awarded a medal for Ivory Miniature Porcelain, and especially for my Indestructible Gold and Silver Miniature Process.
